Dear *Sir / Madam*

I write to you in context of the Model Guidelines for Foster care, 2016 that are revised in the light of the Juvenile Justice (Care and Protection) Act, 2015 by this Ministry.

2. These revised Model Guidelines have added components of group foster care where a group of unrelated children are placed with a foster family or under the care of foster care givers in a family like setting who may/may not be having their own biological children. These guidelines also provide for the adoption of the foster child by the same foster parents after keeping that child in foster care for a minimum period of five years on the orders of the CWC. In this regard due procedures prescribed in the Regulations Governing Adoption of Children, 2016 shall be followed. The same will be facilitated through CARINGS.
3. A copy of the revised Foster care guidelines, 2016 has been made available on the webpage of this Ministry at www.wcd.nic.in. You are kindly requested adapt or adopt them while making State Rules on the same.

MODEL GUIDELINES FOR FOSTER CARE, 2016

Be the Sunshine
in a Child's Life,
Foster a Child.

India has a well developed and strong family system. In many areas the traditional joint family system is still very strong and so a child grows up in the company of his/her own siblings, cousin and grandparents. The term "joint family" is used more commonly than "extended family" in the country. In situations where parents are unable to take care of children due to illness or any other reason, children are taken care of by the joint family i.e by the kins/relatives.

The present Guidelines are not aimed at institutionalising such informal family systems embedded in our socio cultural milieu and therefore do not cover such arrangements. In case, the extended family requires financial support for the care of the child, the same may be provided through sponsorship of the child as provided for in the Juvenile Justice (Care and Protection of Children) Act, 2015 itself or the family may be referred to other Schemes and Programmes of the Government that strengthen families.

The present Guidelines for Foster care aim to protect the well-being of children who are deprived of family care or who are at risk of being so. Such children in need of care and protection are to be placed in unrelated family foster care or group foster care.

MODEL GUIDELINES FOR FOSTER CARE, 2016

The Guidelines derive strength from section 44 of the Juvenile Justice (Care & Protection of Children) Act 2015, Rule 23 of the JJ Rules, 2016 and the United Nations Convention on the Rights of the Child (1989). These Guidelines do not include pre adoptive foster care as Regulations for Adoption 2016 framed under JJ Act, will apply in such cases.

The States/UTs may adapt or adopt these Guidelines to suit their socio economic and geographic needs.

3. Premise

i. Non- formal Kinship

In India, non- formal kinship care is strong. Children without families or with families who are unable to care for them are provided care by the members of the joint/extended family members. In case a relative is not available or willing to take care of the child, then the child is placed with a willing family who shares a cultural, tribal and /or community connection same to that of the child including friends of the parents, neighbours and members of the same community/clan. This arrangement is not to be formalized in these guidelines as such care is embedded in our social milieu. Such non formal kinship will continue as it is traditionally practiced in the country and will not be covered under these guidelines. In case such non formal Kinship care requires financial support it shall be considered under sponsorship program as provided for under the Act or any other program of the State Government.

ii. National Policy for Children, 2013

The National Policy for Children adopted in 2013 recognises that all children have the right to grow in a family environment, in an atmosphere of happiness, love and understanding. The family or family environment is most conducive for the all-round development of children and they should not to be separated from their parents, except where such separation is necessary in their best interest.

4. Foster care

Foster care according to Section 44 of the JJ Act, 2015 children in need of care and protection may be placed in foster care, including group foster care for their care and protection through orders of the Committee. Placement may be

MODEL GUIDELINES FOR FOSTER CARE, 2016

- (a) in a family which does not include the child's biological or adoptive parents i.e in an unrelated family recognised as suitable for a short or extended period of time;
- (b) in a fit facility recognised under the Act for group foster care

4.1. Foster care is an arrangement whereby a child is placed for the purpose of alternate care in the domestic environment of a family, usually on a short term or extended period of time, with unrelated family members for purpose of care and protection.

4.1.1. While placing a child in foster care, preference is given to those families that share similar cultural, tribal and /or community connection. Foster care can be short term or for extended period of time depending upon the needs of the child. The situations under which Foster care can be given will rest on the CWCs based on their assessment of the individual case presented before them.

Definition

- i. Foster care for short term period means for a period of not more than one year.
- ii. Foster care for extended period of time is placement of a child by the Committee for a period exceeding one year. The duration whether short or long term will also be based on the assessment of the compatibility of the child with the foster care parents the period of placement can be periodically extended by the Committee till the child attains 18 years of age.

4.1. 2 Group foster care is defined as a family like care in a fit facility for children in need of care and protection who are without parental care. The aim is to provide personalised care and a sense of belonging, identity and emotional security.

MODEL GUIDELINES FOR FOSTER CARE, 2016

Group foster care is also practiced as an intermittent arrangement suitable for children picked up from streets before placing them in family foster care. Such placements help to make seamless transition from group to family care. This placement aims to wean the children from street life. It can also help in de- institutionalising a child in providing alternate care to the child. Hence, Group Foster care is practiced as a family setting where a group of unrelated children are placed under the care of foster care givers in a fit facility.

4.1.3 There are various models of group foster care which are being practiced across the Country. These models are providing both short term and extended security and stability to a limited number of children in as close as possible family like settings or atmosphere. But they all must be registered as fit facility under J J Act and the placement of children is to be as per the orders of CWCs.

5. Fundamental Principles of Foster Care

- i. Family or a family like environment is most conducive for a child and every child has the right to grow in such an environment;
- ii. Recognizing that every child has the right to grow in a family environment, every attempt must be made to reunite the child with his biological family by strengthening the biological family through a planned process;
- iii. All decisions, initiatives and approaches falling within the scope of the present Guidelines are to be made on a case-by-case basis, based on the principles of necessity and appropriateness with a view, to ensure the child's safety and security, and must be grounded in the best interests of the child; He/she should be informed and prepared throughout the process;
- iv. All decisions, initiatives and approaches falling within the scope of the present Guidelines must respect the child's right to be consulted and to have child's views duly taken into account in

accordance with his evolving capacities; with full participation of families and legal guardians where available;

- v. Siblings and twins should be placed in one family or fit facility; the limit on number of children to be placed in a single family or fit facility can be relaxed in such a case.

6. Placement of the child in family or group foster care

- i. The appropriateness of placement of a child in family foster care or in group foster care in a fit facility may be determined by CWC. Some of the factors to be borne in mind while taking the decision are given below:

IEC MATERIAL

1. The challenges of being a care giver/ parent

Separation from family is one of the most upsetting events that can be experienced by a child, therefore becoming a care giver/parent has many challenges and requires a high level of commitment. Children who have suffered abuse and neglect can display a range of challenging behaviours and require a high level of physical, emotional and social support.

Other challenges may include

- Issues with DCPU
- Inadequate support during emergencies
- Experiencing stress when dealing with children's complex needs
- Lack of information and/or training to address problematic behaviours or health issues
- Inadequate financial resources for children with special needs
- Difficulties dealing with birth parents or issues between the child and the birth parent
- Saying good bye when a child or young person is reunified or moved to another foster placement

2. Helpful tips for care givers/parents

Below are some helpful tips that may help the care givers/parents in dealing with the challenges of foster caring:

- Get to know the child in your care
- Identify their strengths and areas of need
- Be aware of any special requirements of the child

MODEL GUIDELINES FOR FOSTER CARE, 2016

- May set boundaries and daily routines (eg meal times and bedtimes). However, these may need to be introduced slowly to allow time for the child to settle in and familiarise with the new family.
- Be patient when a child tests you to find out if you are genuine or patient enough
- As much as the situation permits, you need to be very understanding and show the child that they can trust you.
- If you have children of your own at home, the foster child would need to be adequately looked after and assured that they are welcome in the family.
- When deciding on becoming a foster parent, it is important to consider how your family would feel about it and when possible, involve them in the decision-making.
- When accepting a placement, it is important that you discuss with your case worker the potential issues that may occur, so you can have realistic expectations of the foster child. It is also important to maintain ongoing contact with your case worker.
- It may help to join a foster parent support group ,if available so you can access local services as well as information resources. If there is no local group available, your case worker might be able to refer you to an online support network.

MODEL GUIDELINES FOR FOSTER CARE, 2016

3. Rewards of being a foster parent

Being a foster parent can be very demanding and exhausting. However, there are also rewards such as:

- Being instrumental in keeping children safe and helping them to reach their full potential
- Being a highly valued and contributing member of a caring team
- Expanding your social and personal contacts
- Enhancing your own parenting skills and knowledge while helping other parents to develop new ways of relating to children

4. STEPS TO BECOMING A FOSTER CARER

information
/Advertisement | <ul style="list-style-type: none">• It wil contains basic information about being a foster carer.• After you have read the material and you want to find out more, you should attend an information session.• If you are unsure if you would be suitable or eligible as a foster carer, call the office of the DCPU |

interest | <ul style="list-style-type: none">• Once you and your family have decided to take the next step, complete an application form and return it to DCPU |
| Step
4 | Home visit | <ul style="list-style-type: none">• A person from the DCPU team will call you to make a time to meet you and your family at home. This is a chance for us to learn more about you and have a look at your home. For you, it is an opportunity to hear more about fostering. If you still want to go ahead, the worker will leave you an application form. |
| Step
5 | Screening | <ul style="list-style-type: none">• The application form send to the office of DCPU. The form asks for background details of you and your family.• Part of your application includes giving DCPU permission to carry out police and Department |

checks, contact referees, and get a health report from your doctor.

Step 6 Assessment

- The assessment starts after DCPU have received some of the screening information. Some one from DCPU will visit you and your family several times at your home.
- You will decide, with the DCPU, what type of foster care you wish to do, and what age and sex of child would fit best with your lifestyle.
- DCPU will assess your readiness to become a foster carer and your ability to:
 - work as part of a team;
 - respond to a foster child's emotional, educational, psychological and physical needs;
 - provide a safe home, free of abuse; and
 - take the responsibility to learn and develop as a carer.

Step 7 Training

- You will need to attend preparation training sessions.
- At these sessions you will learn about why children enter care and the issues that they experience, as well as your and the roles and responsibilities of other partners.

Step 8 Approval

- The DCPU staff will submit a report to the CWCs and SFCAC, who, in turn, will make a recommendation about whether or not you should be a foster carer.
- If you are approved, you will get a letter and be asked to sign an undertaking with the CWCs.
- This whole process can take about three

MODEL GUIDELINES FOR FOSTER CARE, 2016

months. It might seem a long time, and a bit intrusive, but we need all this information to make sure that you are suitable, safe and able to look after other people's children.

- If you are not approved, there are still ways you can help. You may be able to assist as volunteer in other ways

MODEL GUIDELINES FOR FOSTER CARE, 2016

EXPLANATORY NOTES ON COUNSELING OF POTENTIAL FOSTER CHILD

1. Counselling should be conducted as per the child's understanding level and he/she should be informed of a foster placement which might happen in their lives. The person involved in the foster care process should be introduced and that the children should be encouraged to share their feelings surrounding this process. **The child's safety and best interest should be the most important consideration in this process.**

2. **Objectives of counselling session:**

- To begin educating prospective foster children about what they can expect from being a foster child
- To minimize traumatic effects on a child as a result of being removed from their previous familiar environment
- To assure safety and quality of care that a child will receive as his/her right

3. Guiding notes:

1. Does the child understand the concept of foster care?

Yes No

(If not, explain foster care fully including the concept, the legal aspects and the key stakeholders in the process including the roll of the DCPU, PO-NIC, DCPO, CWC, SFCAC, etc.)

2. If the child wants to be connected to anyone in society, make sure they are part of this process if safe and appropriate for the child. The identified people are the first potential foster parents. However, they shall follow the said procedure of being a foster carer/parent. Please list all connections the child mentions. Sometimes drawing pictures about their "circle" of people

MODEL GUIDELINES FOR FOSTER CARE, 2016

can be very helpful. Ask them to draw a house or their community and ask who is in the circle and who is not. Who have they listed?

EXPLANATORY NOTES ON COUNSELING BIOLOGICAL FAMILIES OF FOSTER CHILDREN

Meetings with biological families of foster children should be done by the foster parents with support from the case worker as per need. **The child's safety and best interest should be the most important consideration in this process.**

A foster parent should remember that for a child, contact with birth family is their connection to identity. Evidence based research shows that when children feel a connection to their roots, regardless of the safety and conditions of their biological family, they feel a connection to life. This is an important connection to maintain when safe and appropriate.

Biological families should not be made aware of where a foster family or foster child lives. They should meet at the CWC, DCPU or case manger's agency under supervised visits to prevent negative impact on foster family. (*eg may extort money from foster family*)

EXPLANATORY NOTES ON CONDUCTING CASE VISIT

Prior to the visit, review records and list below items identified for follow-up at last home visit. Use this list as a prompt during discussion with the foster family.

During this visit be sure to follow up on these top priorities from the last visit: Below each topic area are guiding questions you may wish to use. These questions are merely suggestions, not a script. Please use a piece of paper to fill out comments as per each of the below categories but also use your own questions as per the family situation.

Discuss the topic areas below in a way that is natural and conversational. It is mandatory to cover each topic and make comments in the comments section.

1. Foster carer/parent home

- i. **Changes in the household:** Is anyone new living in the house, staying temporarily, or spending most of his/her time here? New job or financial status?
- ii. **Relationships in the foster family:** How are the children getting along? What about relationships between adults and children? Between adults? What's the greatest source of conflict in the family? How are issues resolved?
- iii. **Cultural and ethnic considerations :** (What are foster parents doing to learn about, honor, and maintain connection to the original culture(s) of the children placed in their home? Do they have any questions or need information about the child?
- iv. **Social support and respite:** Who does foster family turn to for help and advice—friends, extended family, coworkers, community, religion, school? Does the child have social/emotional support and connections outside the home?
- v. **Services and training:** What resources/referrals are needed for child or other members of foster family—i.e child care, substance abuse, etc.?

MODEL GUIDELINES FOR FOSTER CARE, 2016

What skill would the foster parent or child in foster care benefit from learning/enhancing right now?

- vi. **Safety and supervision in the foster home:** For example, does the child feel safe in the home? Is safe and appropriate discipline being used? Is there an appropriate level of supervision for children in the home? Does the community accept the child living in the home; are there any dangers therein?
- vii. **Child behaviors and parenting skills:** Is any child displaying challenging behavior? How capable & successful do foster parents feel in managing child's behavior? What's working/not working?
- viii. **Schooling/education of child:** How is the child doing in school? Consider social as well as academic issues. What does the child or family need to increase success? Are they taking tuitions?
- ix. **Physical and mental health status/needs of child and foster family:** Is the child in good health? Does the child have unmet or ongoing medical needs? Have foster parents noticed any recent changes in the child's mood or behavior? Does the child or foster parent have questions about the quality or frequency of mental health services? Is anyone else in the home having medical or mental health problems?
- x. **Visits, interactions with birth family, and shared parenting:** Does child have concerns or needs related to birth family or visits with them? How do foster parents respond? What are foster parents doing to maintain the connection between the child and the birth family? What has worked or not worked? What help do they need?

If they have done fostering earlier too, how well the child had integrated into the family. What is he/she doing now? Interaction with that child will reveal many facets of the foster care giver/parent's personality.
